

# COMMERCIAL/INDUSTRIAL & AREA LIGHTING EFFICIENCY APPLICATION FORM

Applications will only be processed if fully completed and signed. Once completed, return to your electric utility provider. Questions?? Contact Kelly Beiermann at kbeier@nppd.com (402-563-5415) or Cory Fuehrer at cfuehr@nppd.com (402-362-7390).

- 1. Customer Name:** \_\_\_\_\_ Electric Utility: \_\_\_\_\_
- Customer Type (check one):  Industrial/Agricultural  Commercial  Residential
- Completed W-9 attached. (Note: Incentive will not be processed unless W-9 is properly completed and attached.)
- Customer's Account Number: \_\_\_\_\_
- Customer's Address & City: \_\_\_\_\_
- Installation Address & City (if different from above): \_\_\_\_\_
- Customer's Tax Identification Number: \_\_\_\_\_
- Customer's Contact Telephone Number: \_\_\_\_\_
- 2. Name of Contractor (if applicable):** \_\_\_\_\_
- Address & City: \_\_\_\_\_
- Phone Number: \_\_\_\_\_

**3. Equipment Information:**

Lighting Equipment	LED Wattage	Quantity	Incentive	Subtotal
<b>Linear Fluorescent</b> (Replaces fluorescent)	NEW LED Fixture	9 – 22 watts LED	\$5	
		23 – 45 watts LED	\$10	
		46 – 68 watts LED	\$15	
		69 watts or greater LED	\$20	
	Retrofit Lamp, Tube, Panel or Kit	9 – 22 watts LED	\$2	
		23 – 45 watts LED	\$4	
		46 – 68 watts LED	\$6	
		69 watts or greater LED	\$8	
<b>High Bay, Exterior Dusk-to Dawn</b> (Replaces Mercury Vapor, Metal Halide, High Pressure Sodium, Incandescent = 300 ≥ watts)	NEW LED Fixture	9 – 65 watts	\$20	
		66 – 130 watts	\$40	
		131 – 240 watts	\$60	
		241 watts and greater	\$80	
	Retrofit Lamp, or Kit	9 – 65 watts	\$8	
		66 – 130 watts	\$16	
		131 – 240 watts	\$24	
		241 watts and greater	\$32	
<b>LED Exit Signs</b>	Under 8 watts	\$10		
<b>Fluorescent freezer/refrigerator case lighting</b>	Does not require DLC listing	5' or 6' LED	\$20	
<b>Uncensored control</b>		Occupancy sensor	\$15	
<b>Total Incentive Requested</b>				
If you don't see your lighting option, contact your local electric utility to see if your project may qualify for the EnergyWiseSM Custom Lighting Program.				

**Qualifying systems include:**

- Existing facilities only, no new construction. (Existing facilities have previously received permanent, electric service for twelve (12) months or more.)
- All Commercial and Industrial customers qualify. Other customers may qualify at the discretion of their local electric utility.
- Upgrade projects seeking more than \$5,000 in incentives require pre-approval and possible inspection by their local electric utility.
- All eligible projects require installation of LED technology.
- Incentive values are based on the input wattage of the new LED technology.
- Retrofitting existing linear fluorescent fixtures with kits, panels or LED tubes are deemed Linear Fluorescent retrofits.
- Upgrades to recessed can lights and replacements of fluorescent lamps that are less than three (3) foot of linear length do not qualify.

Print Name Signature Date

**Contractor:** \_\_\_\_\_  
 (if applicable) Print Name Signature Date

## TERMS & CONDITIONS

**PROOF OF PURCHASE:** **Sales receipt(s) or invoice(s)** itemizing the new equipment and indicating the make, model, wattage, purchase date, and vendor must accompany each energy efficiency incentive application.

**INCENTIVE OFFER:** This energy efficiency incentive program covers equipment during the program year in which it is purchased and installed. Details of this program, including incentive levels, are subject to change without notice. The electric utility reserves the right to limit incentives.

**ELIGIBLE EQUIPMENT:** Equipment must be new, permanently installed and operational LED technology at the customer's existing premise. With exceptions for exit lighting, occupancy sensor controls and refrigerated case retrofit lighting, all new fixtures, retrofit lamps, tubes and retrofit kits must be standard or premium-listed by Design Lights Consortium (DLC) to ensure quality standards. Incentive values are based on the product's primary use as identified in its DLC listing. Upgrades to recessed or downlighting, compact fluorescent and linear fluorescents lamps less than three-feet in length do not qualify. Upgrades to any portion of existing fluorescent fixtures are deemed Linear Fluorescent upgrades. Existing premises have previously received permanent, electrical service for twelve (12) months or more. **NEW CONSTRUCTION AND/OR ADDITIONS DO NOT QUALIFY!**

**ISSUING INCENTIVES:** Equipment must be purchased and installed before an energy efficiency incentive is issued. Falsifying any information may lead to cancellation of this and future incentive applications, a claim by the electric utility for the return of any incentive, and/or referral for prosecution. Please allow 45 days for delivery of incentives. Submitting an application with incomplete or missing information may delay processing of the incentive.

**APPROVAL & VERIFICATION:** Incentives exceeding \$5,000 require approval by the electric utility before purchase or installation. The electric utility reserves the right to verify sales transactions and inspect all lighting projects prior to and after installation.

**TAX LIABILITY:** Neither the electric utility nor Nebraska Public Power District are responsible for any tax liability imposed on the customer as a result of the energy efficiency incentive.

**ENDORSEMENT:** Neither the electric utility nor Nebraska Public Power District endorse any particular manufacturers, products, or system designs in promoting this program. Equivalent products must be pre- approved by the electric utility and Nebraska Public Power District.

**DISPOSAL:** The customer/contractor is responsible for the proper disposal and/or recycling of any waste generated as a result of this project, including the disposal of fluorescent lamps (which contain mercury) and ballasts suspected of containing PCBs. (Any fluorescent ballast dated pre-1979 should be considered to contain PCBs unless otherwise labeled.)

**SAFETY & BUILDING CODES:** The customer/contractor agrees that each measure complies with all federal, state, and local safety, building, and environmental codes. All products must be UL-listed and installed per manufacturer's instructions.

**DISCLAIMER OF WARRANTIES:** Neither the electric utility nor Nebraska Public Power District warrant the performance of any equipment either expressly or implicitly. Contact the supplier or contractor for details regarding equipment warranties.

**ENERGY BENEFITS:** The Utility is entitled to 100% of the energy benefits associated with the implemented Energy Conservation Measure, excluding the value of energy cost savings realized by the Customer, but including all rights to all associated energy, capacity, reserves, and emissions. The Customer agrees to provide the Utility with such further documentation as the Utility may request to confirm the Utility's ownership of such benefits.
